

After Air-Chair, the first seat to use air-moulding technology, the chair First breaks new ground in this technology once again (hence its name). The empty frame is used not only for volumes with a small, tubular cross-section, but also for the wider and more complex volumes of the entire seat and back.

This makes it possible to create a more organic, three-dimensional form, without the visible tubular structures seen in other chairs.

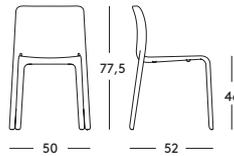

Designer in Magis

First — design Stefano Giovannoni, 2007
Technical Sheet

Stacking chair

Material: polypropylene with glass fibre added. Air-moulded. Suitable for outdoor use. Magis logo is stamped on each product of our collection vouching for their originality.
