

Flare — design Marcel Wanders, 2003

Flare table features distinctive conical legs in transparent or painted polycarbonate, on which the glossy white MDF top seems to hover, suspended in mid-air. Under each foot there is a lid that can be unscrewed in order to insert -into the transparent legs- sheets of paper with graphic designs, created by Marcel Wanders and Javier Mariscal, making the table easily and instantly customizable, and giving it as a whole a cheerful and amusing character.

Designer

Marcel Wanders

Regarded by many as an anomaly in the design world, Marcel has made it his mission to “create an environment of love, live with passion and make our most exciting dreams come true”. His work excites, provokes, and polarises, but never fails to surprise due to its ingenuity, daring and singular quest to uplift the human spirit, and entertain.

In his designs, Marcel often mixes innovative materials and techniques with references to well known historical styles and archetypes, so users can easily connect to the pieces, enjoying them for a long time and in doing so create sustainable surroundings.

Marcel’s chief concern is to bring the human

touch back to design, ushering in what he calls design’s ‘new age;’ in which designer, craftsperson and user are reunited.
