

## Pizza Table — design Naoto Fukasawa, 2012

"This table is designed for serving either coffee or wine and snacks alongside the sofa. Its distinctive character is given by the edging around the table top, reminiscent of a pizza crust, a convex edge that perfectly fits the steel rod frame, with a look that is both handsome and jovial."

Naoto Fukasawa

## Designer

**Naoto Fukasawa**

To design shape is to give form to values that people tacitly share and wish for. Naoto Fukasawa visually captures these values and draws their exact outline. His ability to visualize the unseen outlines of things is not easily worded and described, nonetheless, people are immediately convinced of his ability when they experience his design.

Fukasawa's notions and expressions in approaching the essential values of things through design transcend borders and domains, and his thoughts are well respected internationally.
