

Spike - The Wild Bunch — design Konstantin Grcic, 2014

Spike - The Wild Bunch is a shelf featuring the distinctive element shared by the entire The Wild Bunch collection: a brightly coloured plastic clamp used to adapt to shelves of different thicknesses and various materials, from painted steel plate to beech to Carrara marble (for the round version only). Spike is a highly versatile shelf that will fit beautifully into the lounge in any home, and looks equally good as a bedside table.

Designer

Konstantin Grcic

Konstantin Grcic was born in 1965 and studied Design at the Royal College of Art in London. Since setting up his own practice, Konstantin Grcic Industrial Design (KGID), in Munich in 1991, he has developed furniture, products and lighting for some of the leading companies in the design field. Konstantin Grcic defines function in human terms, combining strict forms with considerable mental acuity and humour. Each of his products expresses a careful research into the history of design and architecture, and his passion for technology and materials. Known for his pared-down pieces, Grcic is often called a minimalist, but the designer himself prefers to speak of simplicity.
