

Striped — design Ronan & Erwan Bouroullec, 2005

A collection of seats, easy chairs, stools and tables that are lightweight, easy, stackable, and perfect for outdoor use, but also ideal in a number of indoor settings. The design of Striped features a combination of rigour and poetry, typical of the style of Ronan and Erwan Bouroullec. The polyamide slats in the chairs evoke a seventies feel, perceptible in their lines and in the plastic material used, and they blend essential aesthetics with excellent comfort.

Designers

Ronan & Erwan Bouroullec

Ronan and Erwan Bouroullec have been working together for about ten years now. Their collaboration is a permanent dialogue, nourished by their distinct personalities and a shared notion of diligence, with the intention to achieve greater balance and refinement. The Bouroullecs have been working with Magis since 2004, designing two complete furniture collections as well as other projects. These days, Ronan and Erwan Bouroullec design for numerous manufacturers and they also continue to carry out their own experimental activity which is essential to the development of their work at Galerie Kreo, Paris, where four exhibitions of their designs

were held between 2001 and 2012. They also embark on occasional architectural projects.
