

Transit — design David Mellor, 1998
Technical Sheet

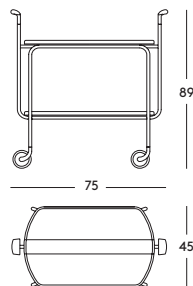

David Mellor was one of the greatest exponents of British design, known above all for his extraordinary cutlery sets, but he also worked on various different kinds of projects over the long course of his career. One of these objects is Transit folding trolley for Magis, with its chromed steel frame, injection-moulded polypropylene shelves and glossy die-cast aluminium handle, which

enrich even such a humble, practical item with splendid design value.

Folding trolley

Material: frame in chromed steel tube, tops in standard injection-moulded polypropylene, handle in polished die-cast aluminium.

Magis logo is stamped on each product of our collection vouching for their originality.

Matt colour
Shelves: White 1690 C

Designer

David Mellor

David Mellor (1930-2009), Royal Designer for Industry, was one of the best-known designers in the UK and was unusual in combining the activities of designer, manufacturer and retailer.

His great professional expertise was in metalwork, working over a broad spectrum and designing products on both a large and a small scale.

David Mellor's own designs won numerous international awards, and in 1996 he received the accolade of a retrospective at the Design Museum in London.
