

Tyke - The Wild Bunch — design Konstantin Grcic, 2013

Tyke is a modular bookcase from Konstantin Grcic's The Wild Bunch collection, which also includes tables, stools and a shelves. Tyke's structure comprises uprights in steel tube painted in polyester powder that lean gently against the wall and support the sheet plated shelves, again painted in polyester powder, which come in a range of lengths and depths, and can be attached to the structure at different heights, to suit individual requirements.

A bookcase that offers flexible management of dimensions and spaces, adapting perfectly to modern settings.

## Designer

**Konstantin Grcic**

Konstantin Grcic was born in 1965 and studied Design at the Royal College of Art in London. Since setting up his own practice, Konstantin Grcic Industrial Design (KGID), in Munich in 1991, he has developed furniture, products and lighting for some of the leading companies in the design field. Konstantin Grcic defines function in human terms, combining strict forms with considerable mental acuity and humour. Each of his products expresses a careful research into the history of design and architecture, and his passion for technology and materials. Known for his pared-down pieces, Grcic is often called a minimalist, but the designer himself prefers to speak of simplicity.
