Satyendra Pakhalé

Satyendra Pakhalé considers the design profession an expression of true human optimism. He is motivated by social, technological, ecological, industrial and above all cultural parameters, as much as by a purely creative vision. His prime interest is the design of challenging, mass-producible products and public architecture.

Through a series of award-winning design projects for leading clients and industries, he has developed a worldwide reputation for designing diverse innovative typologies, pushing the limits of technology and materials. Complexity is resolved through experimentation and transformed into elegance, providing the very best solution for

each situation.
