

# Officina

design Ronan & Erwan Bouroullec / 2016

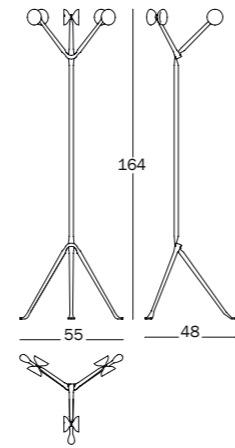

The Officina collection explores the possibility of establishing a new creative language while working with an ancient fabrication process such as iron forging.

The collection has expanded further with a series of accessories such as a coat stand or a wall coat hanger. The coat stand with its typical frame in wrought iron can be galvanized or painted in polyester powder with hooks in rubber.

The wall coat hanger always comes with a frame in painted forged iron and hooks in rubber. All these pieces feature a forged iron structure, with the allure of a raw material handed down through the centuries, alive, with those slight imperfections that once again make each item in this collection unique, with a profoundly refined and elegant spirit. These accessories could add a touch of refinement to every environment.
