The search for shapes that are both sculptural and functional for furniture, in products destined for large-scale production, is a constant in Ron Arad’s design philosophy. Thanks to Magis’ leading-edge technology, this idea has taken on a range of different, original and unmistakable forms, including Raviolo armchair, created from a single strip of rotational moulded polyethylene. Raviolo is available in a large range of colours and therefore it looks equally at ease in any environment, domestic and contract, indoor and outdoor.

Production Process
Low chair

**Material:** rotational-moulded polyethylene. Suitable for outdoor use. Magis logo is stamped on each product of our collection vouching for their originality.

The information included in this product sheet are based on the last data in our current pricelist. Magis reserves the right to modify the products without notice.
Ron Arad’s constant experimentation with the possibilities of materials such as steel, aluminium or polyamide and his radical re-conception of the form and structure of furniture has put him at the forefront of contemporary design and architecture. Alongside his limited edition studio work, Arad designs for many leading international companies and has also designed a number of Public Art pieces.
