

# Flying Carpet

design **Eero Aarnio** / 2006

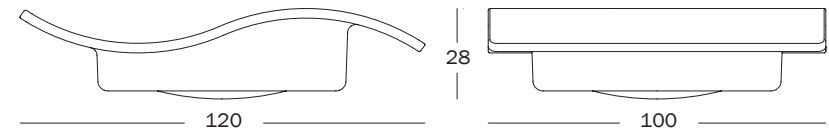

This piece of furniture, designed by Eero Aarnio, encourages the child's imagination to take flight and invites all kinds of creative interaction. Flying carpet is a platform for active play that consists of a base with a rounded bottom to facilitate the rocking motion and a wave-like surface that is reminiscent of fabric waving in the breeze and imparts a sense of movement. The movement gives the sensation of flying and the fun is guaranteed. Suitable for outdoor use.

## material /

rocking base in rotational-moulded polyethylene. Suitable for outdoor use.  
Carpet not available.

"After each flight, Flying Carpet can be parked in the house, or outdoors on its rocker base"

colour /

White 1735 C

**Eero  
Aarnio**

The Finnish designer Eero Aarnio (born in 1932 in Helsinki) is one of the greatest innovators of modern furniture design. His work as a designer began in the early 60s, when he opened his own design studio in Helsinki. Eero Aarnio began experimenting with plastics, vivid colors and organic forms, breaking away from traditional design conventions. Many of Aarnio's now iconic works are included in the world's most prestigious museums.
