

Puppy XS

design **Eero Aarnio** / 2019

Created by Eero Aarnio, master of Scandinavian design culture and innovator on the international scene ever since the sixties, Puppy is a little dog as imagined by the great designer, whose aim was to see through children's eyes when they draw puppies. A head, a body and legs: essential, rounded shapes that come to life in a friendly, playful, durable and colourful object, ready for endless moments of play and fun, both in the house and out of the doors. Puppy comes in four different sizes, all made to measure for children, their tastes and their spaces, and also in an XS version, made this time of standard injection-moulded polypropylene and available in five colours.
