All of our products are made to last. Thanks to **timeless designs**, durable materials and **excellent workmanship** they can be enjoyed for a very long time and therefore make a statement against the throwaway society of today. An eclectic, versatile design that graces museums around the world, and has won close to a hundred extremely prestigious accolades, including six **Compasso d'Oro** awards, the oldest and most authoritative worldwide design award.

Magis is a Latin word that means "more than". This philosophy is reflected in every Magis product. By constantly **experimenting** with new design **languages**, new **technologies** and new **materials**, Magis is always more than ordinary or expected. Each of our products has to meet the highest standards, for this reason they are **Made in Italy**. A Magis product needs to be handsome and functional, and it needs to embody a **strong idea**. Anything else would be easy and ordinary: not the Magis way at all.

1976 – Today. **Pushing the boundaries of design.**

The Magis way

Pushing the boundaries of design since **1976**.

pushing
the
boundaries

MAGIS

of
design since
1976.

Design awards

Our way of doing things is characterised by continuous experimentation with new languages, technologies and materials. This has led us to receive more than **100 design prizes**, including several **Compasso d'Oro ADI** awards, the most prestigious design recognition given every two years to Italian design products that stand out for quality and value.
